Team Size: 25

Key Skills:

Healthcare Technology Full-Stack Development Mobile App Development Web Application Development

Database Design UI/UX Design

Project Link: https://www.vaididea.in/

Vaididea is an integrated digital healthcare and wellness ecosystem built by Vaididea Healthcare Private Limited (incorporated June 2026, New Delhi) and founded by a team of three directors.

It connects patients, doctors, clinics, hospitals, diagnostic labs, pharmacies, ambulance services, gyms and wellness centres through 10 connected portals and apps: a patient mobile app, portals for doctors, clinics, hospitals, labs, pharmacies, ambulance & emergency, gyms & fitness studios and wellness centres, and an admin portal.

Patients can discover verified providers, book in-person or video consultations, order medicines, book diagnostic tests and manage health records in one place. Providers get tools for appointment, patient, inventory and service management.

My role: [product, development, strategy].

Outcome: Built a working integrated prototype (TRL 6) and presented it in the Seva First Innovation Challenge 2026 (DelTech, Govt. of NCT of Delhi). A 75-day plan is ready to pilot it with real hospitals, clinics, labs and pharmacies and take it to TRL 7.
